

Accessories Overview

Wall Bracket

Part Nos.: 2-10035-050 /-22

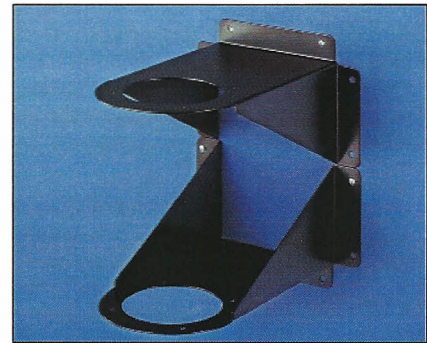

Used for System 100 Wall or Table mounted extraction arms.

The Wall Bracket is made of steel with a black polyester powder coated surface or acid-proof stainless steel (AISI 316L).

Other colours available on request.

Connect to duct (125 mm dia.) with the enclosed reducer.

Material	Part No.
Black powder coated	2-10035-050
Acid-proof stainless steel (AISI 316L)	2-10035-22

Square Wall Bracket

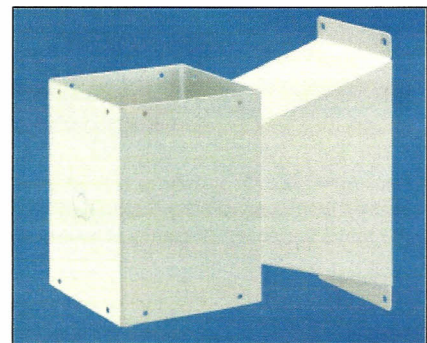

Part No.: 2-100-203

Used for wall mounting of System 100 wall/ceiling mounted extraction arms.

The square wall bracket is made of steel with a white polyester powder coated surface.

Other colours available on request.

Connect to duct (125 mm dia.) with the enclosed reducer.

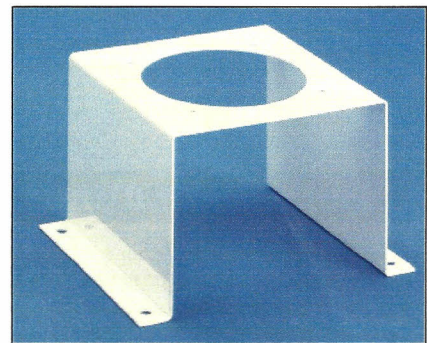

U-Profile

Part No.: 30-100-6

Used for reinforcement of the socket pipe when table mounting a System 100 extraction arm in table plate. U-profile can be placed both above or under table plate.

Made of steel with a black polyester powder coated surface and an extra flange.

Other colours for the U-profile available on request.

Reducer

Part No.: 4-100125-6

Used to connect System 100 extraction arms to duct.

Made of black Polypropylene (PP).

Reduces from Ø125 to Ø100.100.
