

# Accessories Overview

## Wall Bracket

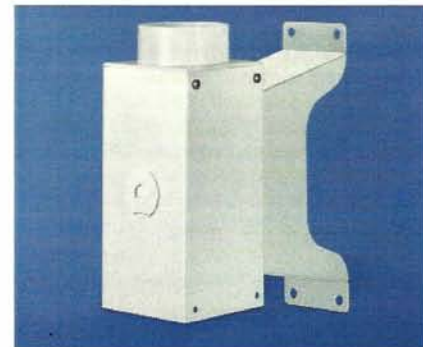

Part No.: 2-195 / -050 & 2-195-10-5

For wall mounting of System 50 Extraction arms. Made of steel with a polyester powder coating in white or black on all surfaces. Other colours available on request.

Three options available for the connection to the duct:

- 1) Directly from the top of the bracket to a Ø 80 mm spiro duct.
- 2) With reducer 4-10075 to a Ø 100 mm spiro duct (reducer included).
- 3) Directly from the top of the bracket to a Ø 75 alu tube.

Colour	Open sides	Closed sides
White	2-195	2-195-10-5
Black	2-195-050	-

## Table Bracket

Part No.: 2-5010 /-050

Used to mount System 50 Table Mounted Extraction Arms on table side which makes it removable for mobile installations. Made of white or black polyester powder coated steel.

Other colours available on request.

Colour of flange	Part No.
White powder coated	2-5010
Black powder coated	2-5010-050

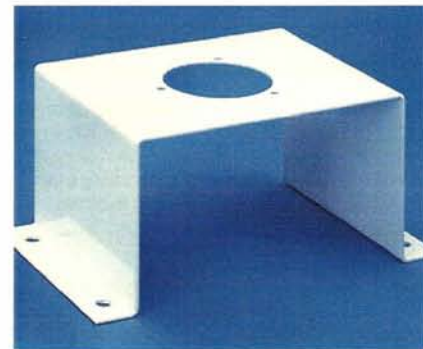

## U-profile

Part Nos.: 30-50-5-4 /-5/-6

Used for reinforcement of the socket pipe when table mounting a System 50 extraction arm in table plate. Made of steel with a white polyester powder coated surface and an extra flange.

The flange is available in white, red and black. Other colours for the U-profile are available on request.

Colour of flange	Part No.
Red	30-50-5-4
White	30-50-5-5
Black	30-50-5-6

## Reducer

Part Nos.: 4-6350 & 4-8050 & 4-10075

Used to connect System 50 Extraction Arms or wall bracket to duct. Made of conductive polypropylene (PP).

Reduces from/to	Note	White	Black
63/50 mm	From extraction arm to duct	4-6350	4-6350-6
80/50 mm	From extraction arm to duct	4-8050	4-8050-6
100/75 mm	From wall bracket to duct	4-10075	4-10075-6
